Mohamed Elazab

Data Analyst

01091708224 ◇ mohamedelazab1199@gmail.com ◇ Alexandria, Egypt ◇ LinkedIn ◇ Portfolio

PERSONAL SUMMARY

Data Analyst skilled in Python, SQL, Excel, and Power BI for data cleaning, visualization, and dashboard development. Experienced in EDA and building interactive dashboards to support data-driven decision-making. Passionate about AI and Machine Learning.

SKILLS

Programming Languages: C++, Python, SQL
Data Analysis & Visualization: Excel, NumPy, Matplotlib, Seaborn, Power BI, Pandas
Machine Learning: Scikit-Learn, Data Preprocessing, Feature Engineering, Model Evaluation, EDA
Tools & Technologies: Git, Jupyter Notebook, VS Code, GitHub
Languages Arabic (Native), English (Good)

PROFESSIONAL EXPERIENCE

Microsoft Power BI Specialist — Nov '25 — Jul '26
Digital Egypt Pioneers Initiative (DEPI)
Developed interactive dashboards using Power BI, Power Query, and DAX.
Performed data cleaning, transformation, and EDA using Excel and Power BI.

- Built data models and visual reports to support business insights.

Machine Learning for Data Analysis Trainee — Jul '26 — Present
Creativa Innovation Hub (NTI)
• Learned the end-to-end machine learning workflow from data preprocessing to model evaluation.
• Built and evaluated classification and regression models using Python and Scikit-learn.
• Applied EDA, feature engineering, and model evaluation on real-world datasets.

EDUCATION

Bachelor of Computer Science and AI, Beni-Suef National University (GPA: 3.4) — Oct '23 — Jun '27, Beni seuf, Egypt

CERTIFICATIONS

Data Fundamentals, IBM SkillsBuild — Aug '25
Introduction to Excel, Data Camp — Aug '25
Data Classification, IBM SkillsBuild — Oct '25
Introduction to Power BI, Data Camp — Mar '26
Microsoft Power BI Specialist, Digital Egypt Pioneers Initiative (DEPI)

PROJECTS

Titanic Survival Analysis Dashboard Link

- Cleaned and preprocessed the Titanic dataset using Python.
  Performed EDA and built an interactive Power BI dashboard.
  - Identified key factors influencing passenger survival.

Automotive Performance & Efficiency Analytics Link

- • Built an interactive Power BI dashboard to analyze automotive performance and MPG trends.
  • Developed DAX measures and used AI Decomposition Tree to identify fuel efficiency drivers.
  • Discovered vehicle weight as the strongest factor affecting MPG.

MTA Daily Ridership Analytics | Power BI, Excel Link

- • Cleaned and transformed ridership data using Excel and Power Query.
  • Built an interactive Power BI dashboard with KPIs and DAX measures.
  • Analyzed ridership trends across transportation modes.
